INNER PATH CODE

Terms of Sale

These Terms of Sale apply to Orders placed after these Terms are published on the Store website.

1. Seller and contact details

1. The INNER PATH CODE online store is operated by TOPMAN s. r. o., whose registered address is Pružina 1061, 018 22 Pružina, Slovakia. Company Registration No. (IČO): 53741552; Tax ID (DIČ): 2121481505; VAT ID (IČ DPH): SK2121481505.

2. The Seller is registered in the Obchodný register Okresného súdu Trenčín (Commercial Register of the Trenčín District Court), Section Sro, File No. 41780/R.

3. Enquiries about Orders, complaints and personal data may be sent to kate@innerpathcode.com or made by telephone on +421 917 720 145. The postal address is the address given in clause 1.1.

2. Definitions

1. Seller means TOPMAN s. r. o., which operates the Store under the INNER PATH CODE brand.

2. Customer means a person or entity making a purchase from the Store.

3. Consumer means an individual entitled to consumer protection under applicable law.

4. Store means the website at https://innerpathcode.com.

5. Product or digital content means an e-book, workbook or personalised numerology report supplied as a PDF file.

6. Order means the Products selected by the Customer and the information submitted through the order form.

7. Contract means the agreement between the Seller and the Customer for the supply of the digital content ordered.

8. Order Page means a private page through which the Customer can access an Order using a confidential link.

9. References to days are to calendar days, and references to hours are to consecutive hours, unless expressly stated otherwise before purchase.

3. Products and the nature of numerology reports

1. The Store sells digital content in PDF format: e-books, workbooks and personalised numerology reports prepared using the information supplied by the Customer.

2. The scope and features of each Product are set out in its description in the Store and in the Order summary available before payment.

3. Numerology is an interpretative tool for self-discovery. It is not a scientific method of predicting events and does not constitute medical, psychological, legal or investment advice. The Seller does not guarantee any particular life outcome. This does not limit the Seller's responsibility for supplying a Product that conforms to its description and the Contract.

4. Reports draw on the knowledge and experience of the author, who has completed training at a school of numerology. Artificial intelligence tools assist with drafting and editing. The author determines

the methodology and reviews the substance of each report. Every report is checked and approved by the author before it is made available to the Customer.

4. Technical requirements

1. To use the Store and receive Order-related messages, the Customer needs an internet-connected device, an up-to-date browser that supports secure HTTPS connections and an active email address.

2. Opening and saving a Product requires a PDF-compatible application or browser and sufficient storage space on the device. No separate INNER PATH CODE application is required.

3. Essential browser functions must be enabled for the shopping basket and access controls to work. Consent to optional advertising or analytics cookies is not a condition of purchase.

4. Any additional technical requirements for a Product are stated in its description before the Order is placed.

5. Placing Orders and providing information

1. An account is not required to place an Order. Before payment, the Customer provides an email address, the details required for billing and the information needed to prepare the selected report.

2. The Customer can review and correct the information in the order form and the contents of the shopping basket before payment. The Customer confirms the information required for the numerology calculations before paying.

3. Customers placing Orders must be at least 18 years old. Every person included in a report must also be at least 18 years old.

4. Information about another person may be provided only with that person's knowledge and authorisation, after they have been given the Privacy Policy. The Customer should not submit information about health, religious beliefs or other special categories of personal data.

5. The report language follows the website language shown in the Order summary when the Order is placed. E-books are available in English only, regardless of the Store's language setting. For forecasts, the specific calendar months covered are shown before purchase.

6. If the Customer discovers an error in the information provided, the Customer should contact the Seller promptly at kate@innerpathcode.com. Errors made by the Seller are corrected free of charge.

7. Changes to information already used to prepare a report may require a new agreement on how the Order will be completed. Any additional charge requires the Customer's prior express agreement.

6. Prices, payment and formation of the Contract

1. Prices displayed in EUR, PLN, USD and GBP are the total prices payable by the Customer in the selected currency. The Order summary shows the Products, applicable taxes and the total amount due.

2. The Seller does not charge an additional fee for card payment or PDF delivery. The Customer's bank may apply its own currency conversion charges; these are not charges imposed by the Seller.

3. Payments are processed by Stripe. The available payment methods are shown during checkout. The button used to complete the Order clearly indicates that the Customer is committing to pay.

4. The Contract is formed once payment has been successfully confirmed by the payment processor and the Order has been accepted by the Store.

5. The Customer receives an email confirming the purchase, amount paid, Products ordered and delivery timeframe, together with the applicable Terms of Sale and the wording of the declarations accepted by the Customer.

6. Invoices are provided electronically. A purchase does not create a subscription or recurring payment arrangement.

7. Orders are not processed until payment has been received. Data from unpaid checkout attempts are deleted after 7 days, subject to necessary security records and legal obligations.

7. Delivery and access periods

1. E-books are made available once payment has been confirmed. Reports are made available within 48 hours after payment has been confirmed and all required information has been received, unless a different timeframe was expressly agreed before purchase.

2. If information needs to be clarified or there is a delay, the Seller contacts the Customer and explains the next steps. This does not affect the Customer's statutory rights if a Product is not supplied.

3. Products are downloaded from the private Order Page. The email contains a link to that page; the report itself is not sent as an attachment.

4. E-books remain available to download again for 12 months from payment confirmation. Reports remain available to download for 90 days from the date each report is first made available. The access period is calculated separately for each report in an Order. The exact access expiry dates are shown on the Order Page.

5. An available e-book can be downloaded before the other Products in the Order are ready.

6. A link sent in the purchase confirmation or the report-ready email is valid for 7 days. A replacement link generated through recovery or resending is valid for 24 hours.

7. Link validity and Product availability are separate periods. An expired link does not end access to a Product if the access period in clause 7.4 has not ended. During that period, the Customer can obtain a new link free of charge at the email address used for the Order. A new link does not extend the Product's access period.

8. Links are confidential and should not be shared with third parties. Once a Product has been downloaded, the Customer may keep the file on their device after Store access has ended, subject to clause 10.

8. Right of withdrawal

1. As a general rule, a Consumer may withdraw from the Contract without giving a reason within 14 days of its conclusion, subject to the exceptions provided by applicable law.

2. When placing an Order, the Consumer may give separate, express consent for the supply of digital content to begin before the withdrawal period has ended and acknowledge that the right of withdrawal will be lost when supply begins. The Contract confirmation includes this consent and acknowledgement.

3. Under the Seller's delivery procedure, supply of an individual Product begins when the Customer starts its first authorised download, after the Contract confirmation has been provided. The right of withdrawal is lost only if the conditions in clause 8.2 are met.

4. Payment, preparation of a report, sending an email, opening the Order Page or an administrator's preview does not constitute a first download. Withdrawal rights are assessed separately for each Product in an Order.

5. A withdrawal notice may be submitted using the Store's “Withdraw from contract” function, by email to kate@innerpathcode.com or by post to the Seller's address. The notice should identify the Consumer and the Contract or Product concerned and provide an address for confirmation of receipt. Neither the model form nor a reason for withdrawal is required.

6. The Seller confirms receipt of the notice on a durable medium. If the withdrawal is valid, the amount due is refunded within 14 days of receipt of the notice, normally using the original payment method and without additional fees. Payment processor charges are not deducted from the refund. The right to use the digital content ends to the extent covered by the valid withdrawal.

7. Once the first download of correctly supplied content has begun, and the conditions in clauses 8.2 and 8.3 have been met, a change of mind or a decision not to proceed after reviewing the content does not give rise to a right of withdrawal without a reason. The Seller offers no additional voluntary refund guarantee for a change of mind after downloading.

8. Loss of the right to withdraw without giving a reason does not affect the right to complain about defects or non-conformity with the Contract, rights relating to unauthorised payments, or any other rights under mandatory law. International Orders are also subject to applicable legal protections that cannot be excluded by contract.

9. Complaints and Product conformity

1. Complaints may concern, in particular, an incorrect or damaged file, a file assigned to the wrong Order, errors in the data, or a Product that does not conform to its description or the Contract.

2. Complaints should be sent to kate@innerpathcode.com and should describe the problem and provide enough information to identify the purchase. The Seller does not require a full report to be sent through an unsecured communication channel.

3. The Seller acknowledges receipt and handles complaints without undue delay, in accordance with applicable law. The Customer is informed of the Seller's decision, the next steps and the timeframe for correcting a defect. Any decision to reject liability is explained in writing.

4. The Seller is liable for defects in digital content supplied on a one-off basis as provided by applicable law, in particular defects present at the time of supply that become apparent within the statutory two-year period.

5. Expiry of the download access period in clause 7.4 does not shorten the Customer's statutory rights. These rights also remain available after the file has been downloaded.

6. If a Product does not conform to the Contract, the Customer may request that the content be brought into conformity free of charge or withdraw from the Contract where the conditions laid down by applicable law are met. This clause does not exclude or restrict any other rights the Customer has under mandatory law.

7. Disagreement with a numerological interpretation does not, in itself, establish a lack of conformity with the Contract. Each complaint is assessed against the Product description, the information supplied for the report and the terms of the Contract.

10. Permitted use of content

1. Purchase grants the Customer a non-exclusive licence to use the downloaded file for personal, non-commercial purposes, with no time limit on the use of a lawfully retained copy.

2. The Customer may use and print a workbook for their own use.

3. Purchase does not transfer copyright or authorise resale, public sharing or distribution of copies, subject to statutory copyright exceptions and other rights provided by law.

11. Personal data

1. The Privacy Policy sets out how personal data are processed, the involvement of technology providers, retention periods and the rights of individuals. It is available in the Store before personal data are submitted.

2. Order fulfilment and compliance with accounting obligations do not depend on consent to marketing. Newsletter subscriptions require separate, voluntary consent.

3. Acknowledging the Privacy Policy confirms receipt of information about data processing. It is not blanket consent to process personal data for any purpose.

12. Disputes and final provisions

1. The Customer may contact the Seller to seek an amicable resolution of a dispute.

2. A Consumer may refer a dispute to the appropriate alternative dispute resolution body, including Slovenská obchodná inšpekcia, Bajkalská 21/A, 827 99 Bratislava 27, email: ars@soi.sk. Details of the procedure are available at https://www.soi.sk/alternativne-riesenie-spotrebitelskych-sporov. This does not prevent court proceedings.

3. The Contract is governed by Slovak law, without affecting any mandatory consumer protection available under the law of the Consumer's country of habitual residence. These Terms do not require a Consumer to bring proceedings exclusively before Slovak courts.

4. Changes to these Terms apply to future Orders. The Seller retains the Terms applicable to each purchase.

20 November 2026

Privacy Policy

This Privacy Policy explains how personal data are processed in connection with the INNER PATH CODE Store, Order fulfilment and enquiries.

1. Data controller

1. The data controller is TOPMAN s. r. o., Pružina 1061, 018 22 Pružina, Slovakia, Company Registration No. (IČO) 53741552, referred to in this Policy as the Controller.

2. Questions about data protection and requests to exercise individual rights may be sent to kate@innerpathcode.com or made by telephone on +421 917 720 145.

3. GDPR means the General Data Protection Regulation, Regulation (EU) 2016/679. Other defined terms concerning the Store and Orders have the meanings given in the Terms of Sale.

2. Data collected, purposes and legal bases

1. Contact and billing details, Order contents and payment information are processed to accept the Order, perform the Contract and handle related correspondence, under Article 6(1)(b) GDPR.

2. Invoices and other required records are processed to comply with legal obligations, under Article 6(1)(c) GDPR. The Controller does not receive the full payment card number or CVC; these details are entered in Stripe's system.

3. The information required for a report is specified in the order form. It includes given names, current and former surnames, information about which given names are used, date of birth, preferred form of address and language. Business reports may also require the company name, brand name, domain name and a relevant company date.

4. The information supplied is used to prepare numerology calculations and an interpretation. It is not used to assess creditworthiness or employment suitability, or to make other decisions with legal effects. Every report undergoes human review before release.

5. Where the Customer supplies data about another adult, the Customer is the source of those data. That person must have been informed in advance and must have authorised the Customer to provide the data. Processing is based on the legitimate interest in fulfilling the Order with that person's knowledge and authorisation, taking account of their rights, under Article 6(1)(f) GDPR.

6. The person referred to in clause 2.5 must be given this Privacy Policy before their data are submitted. The Controller does not prepare reports about people who have not been informed. Any objection or doubt about authorisation is addressed before processing continues.

7. Forms and correspondence should not contain information about health, religious beliefs or other special categories of personal data. The Controller does not require such information to prepare a report.

8. Data included in enquiries, complaints and withdrawal notices are processed to handle the matter and meet legal obligations, under Article 6(1)(b), (c) or (f) GDPR, as appropriate to the circumstances.

9. Consents, copies of applicable documents and records of Product availability and downloads are recorded to protect access, prevent misuse and establish how an Order was fulfilled. Processing is based on Article 6(1)(f) GDPR and, where required to meet a legal obligation, Article 6(1)(c) GDPR.

10. Records may include the date and time of consent, release and the start of a download, Order, transaction and file identifiers, and technical event data, including an IP address where the system records it. The scope of the data and the retention period are limited to what is needed for the relevant purpose.

11. The records described in clauses 2.9 and 2.10 may also be used to resolve payment disputes. They do not establish that the content was read and are not used for advertising tracking. Confidential access links are not stored in readable form in the administrator's history or system logs.

12. Newsletters are sent on the basis of separate, voluntary consent under Article 6(1)(a) GDPR. A subscription can be cancelled using the link in a newsletter or by contacting the Controller. Refusing or withdrawing consent does not affect purchases or essential Order messages. Report data are not used to target advertising based on a numerology profile.

3. Data recipients and service providers

1. The Controller uses the services of Lovable, Hetzner, Cloudflare, Stripe, Resend and OpenAI (through its API), as well as database, email and accounting service providers. Data are disclosed only to the extent necessary for the relevant task.

2. Stripe receives payment and billing information and the Order items, but not report content or the dates of birth of the people included in a report. The payment processor may act as a separate controller when meeting its own legal obligations.

3. The email delivery provider receives the recipient's address and the Order message, without report content or the dates of birth of the people included in the report.

4. OpenAI API assists with drafting and editing interpretations. Processing may involve the personal data needed at a particular stage and the report content. The author determines the numerology methodology and carries out the final review.

5. Data submitted through the API are not used by OpenAI to train models by default. The provider may retain data in accordance with its service terms. Customer data are not copied into ordinary ChatGPT conversations to fulfil Orders.

4. Data location and international transfers

1. The main Order database is configured in an EU region. The Controller also uses a Hetzner server.

2. The use of international providers may involve processing outside the European Economic Area.

3. Where data are transferred outside the European Economic Area, an appropriate legal mechanism is used, such as an adequacy decision or standard contractual clauses, together with any required safeguards. Information about these safeguards is available from the Controller.

5. Retention periods

1. Data relating to an unpaid Order are deleted after 7 days, unless retention is necessary to investigate a specific incident or comply with a legal obligation.

2. A report file and data needed solely to prepare that report are deleted 90 days after the report is first made available. This period is calculated separately for each report, regardless of the status of other items in the Order.

3. Data used for more than one Order item are retained while they remain necessary for another item that is still being fulfilled. E-book download access is maintained for 12 months from payment.

4. Accounting records are retained for the period required by law, generally 10 years after the end of the year to which they relate. Report content is not included in accounting records.

5. Limited records of the Contract, consents, fulfilment and complaints may be retained for as long as necessary to comply with legal obligations or establish, exercise or defend legal claims.

6. Where a dispute arises, deletion may be suspended only for data needed to resolve it. Backup data are deleted in accordance with a limited retention period. Restoring a backup does not authorise further use of data scheduled for deletion.

6. Individual rights

1. Depending on the legal basis and circumstances, individuals have rights of access, rectification, erasure, restriction of processing, data portability and objection.

2. Consent may be withdrawn at any time. Withdrawal does not affect the lawfulness of processing carried out beforehand. The right to erasure does not extend to data that must be retained by law.

3. The Controller normally responds to a request within one month. Any extension is explained and communicated in accordance with the GDPR.

4. Individuals may lodge a complaint with Úrad na ochranu osobných údajov Slovenskej republiky, https://dataprotection.gov.sk, or another competent supervisory authority in the European Union.

7. Required information and automated decisions

1. The required data are necessary to prepare a report or complete the billing process. The relevant service cannot be provided without them. Newsletter subscriptions remain voluntary.

2. The Controller does not make decisions based solely on automated processing that produce legal effects or similarly significantly affect an individual.

20 November 2026

Cookies and Browser Storage

1. Essential functions

1. The Store uses browser functions necessary for the shopping basket, language and currency settings, access protection and payment processing.

2. Basket storage contains Product and language selections. It does not contain the names or dates of birth of the people included in reports. Form data are processed as necessary for the purchase and are not saved in persistent browser storage.

2. Optional tools and consent

1. Optional advertising tools, tracking pixels and analytics require prior consent and remain disabled until that consent is given.

2. Refusing optional tools does not prevent a purchase. If these tools have been introduced in the Store, preferences can be changed through “Cookie settings”.

3. Browser settings and payments

1. Clearing browser storage may remove the shopping basket and saved preferences.

2. Stripe's payment page uses its own security measures, as described in the information provided by Stripe.

3. The Privacy Policy explains how personal data are processed and the rights of the individuals concerned.

20 November 2026

Withdrawal and Complaints

1. Giving notice of withdrawal

1. As a general rule, a Consumer may withdraw from the Contract within 14 days of its conclusion, unless that right has been lawfully lost for the Product concerned. The conditions are set out in clause 8 of the Terms of Sale.

2. Notice may be given through the Store's “Withdraw from contract” function, by email to kate@innerpathcode.com or by post to TOPMAN s. r. o., Pružina 1061, 018 22 Pružina, Slovakia.

3. The notice should state the Consumer's name, the Order number or other information identifying the Contract, the Product or Products concerned and an email address for confirmation. No reason is required.

4. When using the online function, the Consumer should review the notice and select “Confirm withdrawal”. The Seller acknowledges receipt by email, including the notice and its submission date and time. An acknowledgement does not automatically establish that the withdrawal is valid or authorise disclosure of Order information.

2. Downloads and refunds

1. Paying for an Order and receiving a link do not constitute a first download. Starting the first authorised download results in loss of the right to withdraw without giving a reason if the conditions in clauses 8.2 and 8.3 of the Terms of Sale are met.

2. Where withdrawal is valid, the amount due is refunded within 14 days of receipt of the notice, normally using the original payment method and without deducting payment processor charges.

3. Complaints

1. Incorrect or damaged files, errors in the data and non-conformity with the Product description or Contract may be reported to kate@innerpathcode.com.

2. Rights concerning defective content remain available after downloading and after the Store access period ends. Further details are set out in clause 9 of the Terms of Sale.

4. Model withdrawal form

This form should be completed and sent only if the Consumer wishes to withdraw from the Contract. Use of this form is optional.

To: TOPMAN s. r. o., Pružina 1061, 018 22 Pružina, Slovakia; email: kate@innerpathcode.com.

I hereby give notice that I withdraw from the Contract for the Product or Order identified below.

Product or Order number

Date of the Contract, if known

Consumer's name

Consumer's postal address, for notices sent by post

Email address for confirmation

Date and signature, for paper notices only
